MR. HENRY A. POWER TELLS CAUSES OF FOOD COSTS.

That the wholesalers are not responsible for the sensational advances in prices of foodstuffs following the war scare in Europe and that the advance in the cost of necessities is wholly due to natural causes, is the opinion advanced by Mr. Henry A. Power, head of the Power Grocery Co., of Paris. Mr. Power says, "Natural causes led to an advance of one-half to one cent a pound, the people all seemed to go crazy on the subject of sugar. Wholesale grocers tried to buy train loads. Retailers who usually by a barrel or two, bought carload. Many people outside the regular grocery channels began to speculate in sugar. They borrowed money and strained their credit to buy sugar before it went higher. Last, but not least in influencing the market, was the American housewife, who crowded the grocery stores in the large cities and smaller centers, ran over each other, tore the clothes off each other to get to the sugar counters to spend their money for sugar."

"The consequence was that the American sugar refiners found themselves unable to supply the demand and advanced the price from day to day. If the people had bought salt the same way, it would have advanced in proportion. There is plenty of sugar to go around and it is a useless expense for President Wilson to spend the people's money investigating the cause of the advance. 'In the end, the law of supply and demand will regulate the price."

"We will have a large crop of beet and cane sugar in the United States and Cuba has a large crop of sugar to market this fall."

"On the first of next March one-third of the tariff will come off and after March 1, 1916, sugar will be on the free list. 'What goes up must come down,' and one of these days we will see the decline as sensational has been this advance."

"England at present is compelled to seek her supply of sugar in Cuba or the United States until her merchant marine can operate with safety in other sugar producing countries of the world."

"If this state of affairs continues we can't expect much lower prices until new crop of sugars are available about the latter part of October."

"BILL" SCHOOLER NOMINATED.

"Hon." William F. Schooler, popularly known as "Uncle Bill," one of the Mt. Sterling Gazette's original composers and a native and for many years a resident of that city, has been nominated by the Progressives as their candidate for the Legislature from Sandusky County, Ohio. "Uncle Bill" has been making his home in Ohio for several years, claiming Fermont as his domicile, and if meager reports that occasionally sift to his old home town can be taken for anything he is certainly making good in the Buckeye State. He is a man of fine ability and Sandusky county could do much worse in selecting her representative in the State Legislature. Mr. Schooler's many old friends will watch with interest the outcome in November.

DECREASE IN OUTPUT OF KENTUCKY WHISKY.

Kentucky is to make very little whisky for the season of 1914-1915. This is the understanding reached at a meeting of Kentucky distillers held recently in Louisville.

As a matter of fact, each individual present notified the chairman of the meeting, D. L. Johnson, of Cincinnati, that he proposed to produce this season 50 per cent. or less of his average crop for the five seasons from 1910 to 1914, inclusive.

It was estimated that perhaps 90 per cent. of the State's capacity was represented at the meeting, which was an enthusiastic one.

REDUCED RATES MADE FOR MORGAN'S MEN REUNION.

The Morgan's Men Association, composed of the veterans who fought under General John Hunt Morgan, gallant cavalry leader of the Confederacy, will hold its annual reunion at Olympian Springs, Sept. 1, 2, and 3, and the Olympian Springs Hotel has given the veterans a rate of \$2 a day for the occasion. Reduced rates also will be given by the Chesapeake & Ohio Railway, but just what the railroad fare will be has not been announced.

Last year the reunion was held at Olympian Springs and about seventy-five of the survivors of Morgan's gallant men were in attendance, besides their wives, daughters and other relatives and many of their friends.

The veterans enjoyed themselves so well that they decided unanimously to return to the Springs for the reunion of 1914. Secretary Horace M. Taylor, of the association, is working on the program for the meeting which will be announced soon.

PUBLIC NOTICE.

Two-thirds of the people of Paris use hydrant water for drinking purposes. The less water in Stoner the greater the probability of pollution. Do not use it extravagantly. It is better to sacrifice the beauty of the lawn or the fruitfulness of the garden than to chance a human life. (tf) A. H. KELLER, Health Officer.
